In response to the Office Action dated April 24, 2002, please
amend this application as follows:

IN THE SPECIFICATION

Page 1, please replace the paragraph beginning at line 10 with
the following rewritten paragraph:

B' The invention relates to an electric motor having a stator and a
rotor, with the rotor having at least one permanent magnet and a
rotor shaft being mounted radially and axially, and with the
stator having at least two coils which produce a rotating
magnetic field, by means of which the rotor can be driven, when
